One Dead, Four Injured In Lac la Biche Truck Accident

LAC LA BICHE — Investigations are continuing into the circumstances surrounding the truck accident 12 miles west of town Friday night in which one man died and four others were injured.

Alex Blonsky, 50, farmer from the Bluejay district near Lac la Biche ,was killed. Injured are Mike Klimiuk, 29; Peter Klimiuk, John Polischy, 29, and Walter Federuk, all of Bluejty district.

RCMP said the five were in a truck owned and operated by Mike Klimiuk, when the vehicle went out of control, ran into a ditch and turned over. The truck was going west on No. 46 highway.

Blonsky, police said, was a passenger in the back of the light delivery truck. He suffered internal injuries and died in the Lac la Biche Hospital at 8:30 p.m., a short time after the accident. He was a farmer in the district and is survived by his widow and three children.

The driver and his brother are in hospital. Polischy and Federuk were given hospital treatment and released. Polischy's wife, who also was a passenger in the truck, escaped injury.

Dr. William Cadzow, coroner, is investigating and will decide if an inquest is to be held.

Students' Union Presents Annual Graduation Dance

LAC LA BICHE — The Lac la Biche Students' Union's annual graduation dance was held in the Memorial hall recently.

A very large number of guests from both Lac la Biche and surrounding districts attended this semi-formal. The Students' Union appreciates such wholehearted response.

Dancing commenced shortly after 10 p.m. to the music of the Plamondon Orchestra. The formal gowns and the balloon-bedecked hall lent an atmosphere of a formal ball. Confetti, noisemakers and paper hats augumented the gaiety of the evening.

At 11:30 p.m. the graduation ceremonies began. Mr. McMillan, the school principal and master of ceremonies, introduced each graduand in turn to the audience and commented on the labors involved in attaining graduation. The graduating class (largest in history of Lac la Biche) was composed of two girls and five boys: Miss Lydia Boyko, Miss Loveth Bakay, Donald Blair, Arthur Gerard, Paul Bouvier, Paul Piquette, and Paul Diachuk. Unfortunately Arthur Gerard was unable to attend.

Mr. Hall, our school superintendent, gave a speech regarding the occasion, the results of education, and the parents' role in it. He said, in effect, that the graduands were proof of what education aims to accomplish. He then presented each of the graduands with a gift from the Students' Union.

A short speech of acceptance was given by Donald Blair, the valedictorian of the graduating class.

Immediately following, a delicious lunch was served by the high school girls, after which dancing recommenced.

An Excellent Report

Last week J. W. Welbourn, M.P. for Jasper-Edison, spoke over the Radio in "Report from Parliament Hill". Mr. Welbourn made particular mention of his part in bringing into the House legislation to incorporate a pipeline to the Coast via Edson and Jasper, which no doubt is of particular interest to his own constituents.

However, nearly every other phase of the current session of Parliament was touched upon by this Alberta member, who showed he has a wide knowledge of the work of the session, and Mr. Welbourn is to be congratulated on the fine manner in which he discussed the business of government, which should be the interest of all of us.

Sometimes we feel the average voter has little concept of the really difficult job of representing a constituency at Ottawa. Unlike the Provincial Legislatures, where the session lasts only about six weeks, the Federal House sits usually not less than six months during the year. Members have little time to spend at home, and as more and more business is by popular consent being made the business of government, the members will be in future spending more time—not less—at Ottawa.

It is likely this year that a special fall session will be called to deal with increased old age pensions. If spring and fall sessions were made the regular thing it would relieve members of all parties of the necessity of being away from home for such a long period. Shorter and more frequent sessions would permit members more time to visit their constituents more frequently and thus keep their finger on the pulse of public opinion.

Wheat For India

In reply to criticism of Canada's attitude towards famine conditions in India, Rt. Hon. C. D. Howe told the House of Commons that Canada had already sold India 300,000 tons, or 10,000,000 bushels of wheat this year, as compared to the 50,000 tons that Russia is proposing to send. A short time ago Canada offered India $25,000,000 under the Colombo plan to purchase Canadian wheat, but India declined the offer, preferring to wait until better quality wheat was available.

It is expected that the United States will lend India about $190,000,000 to pay for 2,000,000 tons of American wheat.

Meanwhile, H. A. Vogel, a Food and Agriculture Organization representative, predicted that India could become self-sufficient with regard to food in two years if production was increased by "a marginal amount". The Indian government is aiming at being independent of food imports by 1952.

But most of India's agricultural production is of non-food items such as tea, coffee and cotton. Due to religious beliefs a basic food item of other countries—meat—is not readily eaten by Hindus. "Sacred" cattle roam the countryside consuming growth of grass and other vegetation but are not used for food. In our estimation India is not only overly-optimistic in endeavouring to have independence of other countries in food supplies next year but downright foolish and ungracious in refusing our offer of free wheat.

The Nature Of The Enemy

By T. W. PUE

The most horrible news coming out of the present world situation does not involve the actual fighting in Korea. The most instructive news in this category comes from the mass executions that are being staged continually in the principal cities of China.

T. W. PUE

According to the New York Daily News, Red hellhound flunkies of the Chinese Communist Dictator Mao Tze-tung are forever rounding up actual or suspected enemies of Communism, exhibiting them before propaganda-doped crowds in the public squares, then mowing the poor devils down with machine guns without trial.

These reports are not propaganda cooked up on Chinese Nationalist Formosa or in the British listening post and smugglers' roost of Hong Kong. Mao's government not only openly acknowledges its campaign of extermination against the home opposition but brags about it, and repeatedly calls via the Peiping radio for bigger and better blood purges until there isn't an anti-Red left in mainland China.

Children are encouraged to rat on their parents concerning alleged disloyalty to the new government. Previously respected citizens are fair game for the Red murderers. So are working people who don't kow tow 100% to Mao and his city and village and countryside lieutenants.

What's the explanation? Can these barbarous mass murders be charged off merely to Oriental savagery and the fact that human life has always been held cheap in that part of the world?

"JOIN US OR DIE"

That answer seems not to cover the case, for at least two reasons.

For one, Chiang Kai-shek and other non-Communist war lords in pre-Communist China did not slaughter their opponents wholesale in periods of peace or semi-peace.

For another, there is nothing new in the Red Chinese butcheries to anybody familiar with the history of the Russian 1917 Bolshevik revolution. For several years after 1917, the Russian Reds, too, slaughtered every actual or possible opponent they could lay hands on. And they still stage big though hush-hush purges whenever the Kremlin palace clique suspects a putsch against its power is in the making.

Hook these facts up with Lenin's and Stalin's repeated statements that Communism and Capitalism can't forever live along side by side on the same planet, and we think you get the real explanation of the Red Chinese mass murders.

The explanation, we believe, is that these atrocities stem from the basic nature and philosophy of Communism itself, as dreamed up by Karl Marx and brought to full and poisonous flower by Lenin and Stalin.

One central idea of the Communists is that only people who think and act like Communists have a right to exist. All others are regarded by the Stalins and Maos as enemies who should simply be killed, quickly or slowly, if they refuse to surrender their bodies, minds and souls to the Reds—except the Reds don't admit that people have souls.

THEY'RE AFTER YOU, TOO

This, then, is the nature of the enemy that the non-Communist part of the human race faces, and seems likely to face for quite a while to come.

He's an enemy who thinks the same way wherever you find him—in Russia, Korea, Yugoslavia, New York or Edmonton.

What he thinks is not "He that is with me is against me," but "Him that is not with me I will either remake in my own image or kill, as soon as I can get at him."

As far as the Communists around the world are concerned, all of us non-Reds can choose just one of two things — surrender, or die. And of those who surrender, many will die anyway. Look at what happened to a lot of politicians and intellectuals who tried to make their peace with the Communists in Poland, Hungary, Czechoslovakia, etc.

In a situation like this, what is there for non-Reds everywhere to do but resist, and keep on resisting with all the force necessary until the Kremlin-spawned destroy-the-opposition idea is itself destroyed, throughout the world?

The only legitimate arguments among non-Reds, it seems to us, can be over questions of how to make our resistance most effective at the lowest possible cost in blood, money and material.

There is plenty of room for such debates. But if we lose sight of the central fact that Communists everywhere are out to enslave the world, we're likely to be sunk, and swiftly.

Like all myths, the myth that the Chinese army was full of supermen has finally been broken. They are now surrendering by the thousands.

PULLS NO PUNCHES

Dear Sir—Congratulations on the courage of your convictions and judgment expressed in your editorial, "Honesty in the Pulpit." It pulled no punches. If we can't even depend on our clergymen to stick to something, how can we blame our men in public office when they fall short?

STEADY READER.

COLD WAR PROFITS

Dear Sir—Profits of U.S. Industry in 1929 was 6 1-2 billion dollars. After the start of the cold war, 1948 profits were 33.9 billion dollars; in the third quarter of 1950, after the start of the war in Korea, they were making profits at the unprecedented rate of 43 billion dollars. Is it any wonder that "U.S. News and World Report" gleefully exclaims "War scares are easy to create, and are surefire producers of profitable munitions contracts."

Hamlin. F. E. MARICLE.

BITTER MEDICINE

Dear Sir—Hon. J. Gardiner recently said in the House of Commons that "no one has any right to ask the government to seek higher prices on wheat contracts." And this while MP's are all clamoring for price boosts! Prairie farmers can go bust, but Gardiner says "we must not ask for higher prices. Thrice blessed are the dictators, because they inherit the earth, with the farmers under it, along with freedom of speech and press. Bitter medicine, farmers, from your own doctor.

POLICE ACTION CONFUSION

Dear Sir—I would really appreciate it if someone would tell me what this Korean thing is all about. Where are we going and when will we stop? If we are victorious here, will it really be a crushing blow to Communism? What was the original purpose in committing us to war in Korea? Does this purpose remain unchanged? Is it a war without an end? I have been here in Korea quite awhile and I still don't know the answer to this one.

BETTER MAIL SERVICE

Dear Sir—So Postmaster General Rinfret tells us that he can offer "no rosy promise" of better mail service. This doesn't sound like the same man who boasted several weeks ago that Canada's postal service was getting better and better all the time. Well, it so happens we don't want rosy promises. We want better service, and nothing else. After all, aren't we paying for it?

Edmonton. DISGUSTED.

STRIKE FOR COMFORT

Dear Sir—This may not be very important, but I notice that 28 bus drivers have gone on strike in Williamson, West Virginia, for the right to wear sports shirts in the summer months.

Last year a similar situation arose in Canada when the post office department ruled that mail carriers must cling at all times to their little bow ties even when they are sweating in the sun under the heavy bag of letters. A storm of ridicule blew up throughout the country. But the department stuck to its sartorial guns.

I say that people should be comfortable. Let's throw away our neckties for the summer!

Dear Sir—Will you believe this one? At the sports day a little while ago a farmer came in and bet me $5 he could eat 47 hot dogs. Well, I thought there was my chance to make an easy five bucks. But I lost! Believe it or not, that man ate 52 hot dogs!

Large Crowd Attends Farmers' Sports Day At Waskatenau

WASKATENAU — The day was Alberta's best on June 8, and a a large crowd turned out for Farmers' Day sports and parade. First prize for floats went to Clodford Farmers' Club. This float was drawn by a fine pair of blacks, the only horses in the parade. The Boy Scouts took second prize. In the advertising section, John Kotylak, Cockshutt agent, won first place. On this float, drawn by a tractor of the latest design. a perspiring homesteader wrestled with an ancient plow, while he alternately belabored and cajoled an apethetic team of oxen. Another float that caused much laughter was that entered by A. Melnyk, on which a muscular "wash lady" hung out garments from a power washer. Firs for costume and decorated bicycle went to Joyce Evans; second to Lilly Wolanski, while Oliver Wasnea took third prize.

In the afternoon Clodford won the first ball game over Waskatenau. Delph defeated Sprucefield, and later Delph won over Clodford. In the evening a dance was held in the hall, and to make a perfect finish to the day, a fine downpour of rain began during the night.

The pupils of Brighon School entertained friends and former schoolmates June 7. Pop, revels and an abundance of good food were provided. Two promising young musicians, Norman Wonechko and Mike Andrewko, furnished excellent music and the youngsters danced and cavorted to their hearts' content.

Mr. and Mrs. Ray Rogers and son, Marvin, of Athabasca, visited at the George Fowler home recently.

Mr. and Mrs. Cecil Isaman attended the Co-op Convention at Calgary. Miss Elsie Shivetz of the Thorhild Co-op, had charge of the store here during their absence.

On "Green Sunday," June 10, the ladies of the Greek Orthodox Church served dinner in the community Hall. In the evening a concert was given, which drew a very large audience to enjoy the entertainment given in the language of their forefathers.

BOYLE HOME AND SCHOOL GIVE YEARLY REPORTS AT FINAL MEET

BOYLE. — Presentation of fellowships and the winding up of the year's business highlighted the June meeting of the Boyle Home and School Association held Tuesday evening, June 5.

The financial report showed a bank balance of $118.82 after all outstanding accounts have been paid.

A report from the Graduation Banquet committee was heard which stated that with the help of cash and food donations from members of the HSA and other interested persons, the total cost of the banquet, to which approximately 40 persons sat down, was only $14.74.

A refreshment booth had been operated at the school track meet by the HSA to raise funds for this banquet and receipts from the booth were more than enough to cover it.

An interesting part of the meeting was the presentation of four fellowships, each of the value of $15.00, to the most outstanding pupils in each of grades 9, 10, 11 and 12. These fellowships were donated by the Home and School Association and the Ladies' Auxiliary of the Boyle Legion.

The presentations were made by the president, Mr. J. Bendetto to the following pupils, who with their parents had been invited to be present at the meeting: the Ladies' Auxiliary fellowship for grade 9 to Miss Clara Jonson; the HSA fellowship for grade 10 to Miss Audrey Larson; the HSA fellowship for grade 11 to Mane Radmanovich; the HSA fellowship for grade 12 to Ronald Deeprose.

Refreshments were served by the lunch convener, Mrs. Stanley Walker, assisted by other members.

Farmers' Sports Day In Smoky Lake

SMOKY LAKE — The annual Farmers' Sports Day was held here June 8—Farmers' Day. Warspite took first prize in baseball. Their victory was largely due to the pitching and hitting of Bob Tronnis. In the semi-finals Warspite blanked Smoky Lake 8-0; and Andrew outslugged Spedden to the tune of 15-11.

In Ladies' Fastball Competition, Smoky Lake took first honors with Warspite second.

Radway Lions Plan Picnic July 12

RADWAY — A regular meeting of the Radway Lions Club was held in the school on Tuesday night. Final details for Friday night's banquet were arranged. The meeting lasted until 11 p.m. Arrangements for the July 12 picnic will be made at directors' meeting June 12.

Paid workers outside of agriculture outnumber farm operators as a voting group by 4.97 to one.

25 Survey Parties To Study Alberta Mineral Deposits Vital to Defence

A group of federal parties will swing into action throughout Alberta this week on a widespread study of mineral deposits essential to Canada's defence program.

According to word received from Hon. Geo. Prudham, minister of mines and technical surveys, there will be 11 geological parties, seven topographical parties, four legal survey parties, and three dominion observatory parties.

Several of these parties are being organized in Edmonton and Calgary to start season's operations immediately.

EDMONTON AREA

Geological work in the Edmonton area will be carried on by a party headed by P. C. Badgely, which will make a study of cretaceous well cuttings.

R. de Witt will head a party in the Peace River district to continue study of Devonion stratigraphy relating to oil and gas in the area.

E. J. W. Irish will commence one-mile geological mapping in the Copton Creek areas.

R. J. W. Douglas and E. T. Tozer will continue one-mile mapping in the Waterton area. Both areas are of interest because of their oil and gas possibilities.

Four-mile mapping of drift geology, with particular reference to soil and structural material, will be carried out by A. M. Stalker in the Red Deer area; G. B. Craig in the Rosebud area; W. T. Hatfield in the vicinity of Rycroft; and E. P. Henderson in the Watino area.

Studies of the palaeontology and stratigraphy of oil and gas in the southern foothills and Rockies will be continued by H. Frebold, P. Harker, and D. J. McLaren.

The staff of a regional office established in Calgary last year will examine the great number of drill cores and cuttings in that area to aid in study of the stratigraphy of the oil fields.

Topographical surveys comprise one mile to the inch mapping at Lesser Slave Lake, west of the lake, and around Grande Prairie.

In co-operation with the army survey establishment of the department national defence, boundary surveys will be made at Wood Buffalo Park, Elk Island and Banff national parks, and along the Alberta-BC and Alberta-NWT boundaries.

Program for Dominion observatories embraces work at the magnetic observatory at Meanook, just south of Athabasca, and gravity surveys in southeast Alberta.

CIVIL DEFENCE NEEDS 30,000

Drive to recruit 30,000 volunteers for the province's civil defence program has opened in Alberta.

Campaign got underway at a special meeting held in Edmonton. Provincial Secretary C. E. Gerhart, chairman of the Alberta cabinet's civil defence committee, G. R. Howsam, the province's coordinator, and more than 100 industrial men and others attended the gathering.

Recruiting is the fourth phase of Alberta's civil defence plan.

URANIUM search in the northland has focussed on the Lake Athabaska area straddling the Alberta-Saskatchewan-N.W.T. boundary. Men and supplies are being flown in for the big exploration drive. Here supplies are being unloaded on the shore of the lake.

Northern Tract Scene Of Lumber Industry Research

(By British United Press)

A 140-acre tract has been set aside in the Fawcett area in Northern Alberta for Dominion-Provincial research into ways of increasing the growth of Alberta spruce trees, backbone of the province's lumber industry.

Alberta authorities explained that spruce, of which 283,000,000 board feet were produced in 1950, flourishes in areas where well-drained and heavily-mossed soil holds the moisture.

However, selective cutting had not brought about the desired effect of accelerating the growth of young trees in some areas. The experiment will be aimed at discovering the reason and setting out a new pattern of selective cutting to maintain and expand the spruce lumbering industry.

Officials said the area selected for the experiment contains a mixed stand consisting of 40 per cent poplar and 60 per cent spruce. The trees vary in age from 100 to 250 years. Estimated yield of the spruce at present would be from 5,000 to 20,000 board feet per acre.

Twenty-four of the finest patches of growing spruce will be chosen for the experiment, officials added. They will be combined into three blocks of eight patches each. Mature trees in each patch will be cut to determine which pattern permits the best growth in the trees.

Trees left standing will be measured immediately after logging operations are completed. They will be measured again at the end of one year, then five years and again every 10 years until maturity, officials said.

The tip of the Lower Rio Grande Valley of Texas is farther south than any point on the U.S. mainland.

LETTER TO LOUISA

Girl Finds Boy Friend Suddenly Losing Interest

A letter from a reader says that she met a boy some time ago and dated him for quite a while.

They were both interested in each other but all of a sudden he stopped coming to see her without a word of explanation.

The only reason she could think of for such action was that she had formerly gone with a girl who turned out to be not so nice. At the time, however, she had stopped going with this girl for about two months when her friend acted as he did. When she ran around with this girl, she had no idea that she was misbehaving.

She thinks that the boy heard that they were friends and came to the conclusion that they were two of a kind. She doesn't know what to do. She likes the boy very much. She hates to think he has wrong ideas about her and yet she doesn't care to run after him if he has stopped coming because he doesn't care anymore.

Answer:

I think under the circumstances, if I were in your place, I should call him by phone and ask him to see me for a short while where I could ask him why he had stopped seeing me so abruptly.

Don't let him know that you are so in love with him but just tell him that his friendship meant a lot to you and you hated to think that you had done anything that might have offended him.

If he doesn't give you a chance to explain, I don't think there is much you can do but let him alone. If a boy is in love with a girl, he will usually give her an opportunity to tell her side if he hears disagreeable stories about her.

However, it just goes to show that a girl has to be very particular about the company she keeps. She not only has to behave herself in order to protect her reputation, but she has to look the part and not give people the opportunity to suspect her of things she hasn't done.

LOUISA.

$3400 Prize Money In Amateur Baseball Tourney

St. Paul will be the haven of 16 ball clubs come tournament time July 1, 2, 3. It is the only tournament in Alberta in which only amateur teams will participate.

The main rule guarding the St. Paul tourney is that "Any player registered with the Edmonton Oilers, Morinville Cubs, or any other professional or semi-pro baseball team is inelligible to play at the tournament."

Eighteen entries have been received, two of which will have to be returned their $100 entry fees. The entries are from Leduc, Mundare, Willingdon, Hairy Hills, St. Lina, St. Brides, Redwater, Namao, South Makama, Egremont, Thorsby, Warspite, Jake's Outlaws (from the Edmonton Senior Amateur Baseball League), Kallal Motors (from the Junior League), Lac la Biche, St. Paul, Bonnyville, and Hardisty.

First prize money will be the attractive $2,000 which any pro team would be eager to get. Second money is $750 while third and fourth are each $325, making the grand total of the tournament $3,400.

George S. Behm, president of the Edmonton Senior Amateur Baseball League, will be the umpire-in-chief for the entire three days. For the past three years Mr. Behm has officiated at this tournament.

Four games will be played off Sunday, July 1 to eliminate the first four losers. Two of these games will commence at 3 p.m. and the other two will be played at 6 p.m. Remaining games are set for July 2, and 3..

Radway Lions Hold Anniversary Banquet

RADWAY — About 100 people attended the Lions Charter Night anniversary banquet June 8. The Thorhild, Redwater, Andrew and Edmotnon Clubs were represented. Lion "Sorty" Kirstine gave an inspiring address and presentation of certain awards were made by Lion Rev. Bill Buxton. Mrs. J. Sawchuk and Miss Lucy Dombroski entertained with several lovely songs.

The annual Roman Catholic Picnic on Sunday was a great success. Four baseball teams competed. Radway defeated Redwater in the first game, and Abee edged out Thorhild in the second game. In the final game Radway beat Abee by a 7-2 score.

The Radway ladies' softball team defeated the Redwater ladies by a score of 14-6 in a game played here Wednesday evening. A large crowd of supporters were on hand for both teams.

Boyle Board Of Trade Holds Successful Sports Day

The Boyle Board of Trade held a sports day, Friday, June 8, Farmers Day, consisting of four baseball games, foot and bicycle races and a slow car race. A dance in the evening ended proceedings.

Athabasca Juniors beat the Boyle Juniors 12-9 in the first game of the day. The next contest, Lac la Biche vs. Wandering River ended 10-2 in Lac la Biche's favor. Thorhild trimmed Boyle 10-1 to win the right to engage Lac la Biche for first prize. The last game, called at the end of the fifth because of darkness, ended 4-3, Lac la Biche. First prize was $40, second was $20. The Grassland team arrived too late for the draw.

Two cases of spiking during the last game dampened the fans' enthusiasm. There is absolutely no support from the crowd for poor sportmanship. A clean game is always the best received.

Mrs. William Tuomi Feted At Shower In Smoky Lake

SMOKY LAKE — About 100 ladies attended a bridal shower at the Ukrainian National Hall Tuesday, June 5, in honor of Mrs. William Tuomi, the former Miss Laura Ungurian of Smoky Lake. Everyone participiated in games which were very capably directed by Miss McGregor.

Miss Sandra Feschuk presented the honored guest with a beautiful set of silver on behalf of the group. A lovely lunch was served.

SPEDDEN ITEMS OF INTEREST

Seeding in the Spedden district is nearly finished. Rain is hoped for.

There was a little try out of tractors the other day. A Standard D Case tractor needed help from a little Ford. It had to be raised on the hydraulic lift and towed out of some turf.

It was short on gas and the tires were low. But the little grey Ford sure could go. The Case gave a puff and then a snort, but still needed help from the little Ford.

Mrs. Kate Yacyshyn has a new washing machine.

BOYLE NEWS NOTES

Miss Shirley Harmata is in Lac la Biche Hospital taking treatments for the 'flu.

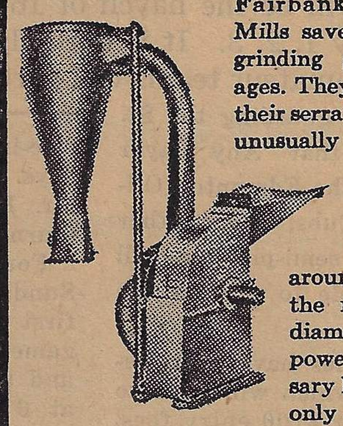

Mr. and Mrs. James McNamara, Sr., Leo and Margaret, are attending the hotel convention in Calgary.

Mr. Pat McNamara is in Lac la Biche Hospital, where he is taking treatment for arthritis, and having his teeth extracted.

Mrs. F. Smith and Mrs. J. Ball attended the Women's Institute convention in Edmonton as delegates from the Boyle branch.

The dance May 29 in Boyle Community Hall, with an Edmonton orchestra, was poorly attended.

Grinds grain faster at low cost

Fairbanks-Morse Hammer Mills save time and power in grinding grains and roughages. They grind fast because their serrated hammer tips are unusually efficient, and their breaker plates and screens are large. Most of the feed is ground the first time around; so passes out of the mill sooner. Large-diameter cylinders save power by giving necessary hammer tip speed at only 2,400 r.p.m.

Farm Accidents Can Be Avoided If Care Taken

Farming is not a safe business but Alberta farmers can help to avoid many serious agricultural accidents by being careful when operating farm machinery.

In the rush of spring work, many farmers are neglectful of their safety. Among the careless things done to save a few minutes are operating a tractor with an unshielded power take-off drive, using wheel brakes to assist steerin, filling the gas tank while the engine is running and stepping off a moving tractor to adjust a trailing implement.

Other dangerous habits which should be avoided are cranking a tractor before first checking to see that it is out of gear, operating a foot clutch by hand from the ground to attach a drawn implement, throwing a running belt from the pulley by hand, climbing over or under a running belt and wearing loose or ragged clothing near rotating shafts.

Children should not be allowed to operate, or ride on, tractors. Tractors are built so that the controls can be reached by adults, not children. Farmers are urged to take particular care in driving tractors because more farm accidents result from thoughtless use of the tractor than from any other cause.

Farmers are advised to see their implement dealers to learn the correct and safe procedures to follow when operating farm machinery.

ALBERT PRATZ, Canadian radio star who has been making a name for himself with NBC in New York, is back home in Toronto for the summer. He will be broadcasting a solo recital every Tuesday night via CBC Dominion, and will be heard as concert master on Lucio Agostinis Whispering Strings show every Sunday night.

Women Liberals Sponsor Teas

The 20th Century Liberal Women's club of Edmonton has sponsored two teas in the past week, one in the east end and one on the south side. A west end tea will be held early in the fall.

Scene of the east end tea was the home of Mrs. D. K. Lewis. Over 50 women called during the afternoon. They were received by Mrs. J. J. Clooney, president of the 20th Century club, and Mrs. Lewis. At the tea urn were Mrs. J. Clark, Mrs. E. M. Taylor, Mrs. Bob Marshall and Mrs. J. Gowda.

The south side tea was held at the home of Mrs. P. Miskew. Receiving were Mrs. K. G. Montgomery, president of the Alberta Women's Association, Mrs. G. Nicol and Mrs. Miskew. Pouring tea were Mrs. J. Harper Prowse, Mrs. E. Wilson, Mrs. Chas. Grant and Mrs. Wm. Hawrelak.

This tea, too, was an unqualified success, with over 50 in attendance.

The LIGHTER SIDE

Far Away

"My music teacher says I have a fine voice and should go far"
"Splendid! I'll help you pack."

Fragile

A young woman was mailing the old family Bible to her brother in a distant city. The postal clerk examined the heavy package carefully and inquired whether it contained anything breakable.

"Nothing but the Ten Commandments," was her quick reply.

A "Pick-Me-Up"

"Where's Dad?"
"Somebody made him a present of a small bottle of brandy so he's gone into the bedroom to feel faint!"

Hope So

A small boy, visiting New York for the first time, went in an elevator to the top of a skyscraper. As he shot past the 62nd floor at breath-taking speed, he gulped, turned to his father, and asked "Daddy, does God know we're coming?"

The Finer Touches

French explorers forcing a way through dense African jungles came upon a party of cannibals about to have a feast on a late enemy. The cannibal chief came forward to greet the Frenchmen in perfect French. When they showed surprise at his command of their language, he explained that he had studied in France; even took two years of French literature at the Sorbonne.

"What!" exclaimed the explorers. "You've been educated in France and yet return to feed on human flesh! It's unbelievable.'

"Well, replied the chief modestly, "now I use a fork.

The *Right* Ingredients Make the Most Effective WEED-KILLER

33 weed-killing formulations tested on over 7,500 test plots . . . over 100,000 individual plot readings . . . *proved* the most effective 2,4-D ester weed-killer contains four ingredients, *oil, coupler, emulsifier and ester.* A formulation lacking any of these is inferior.

The same tests proved the effectiveness of the individual ingredients in the formulation. The result . . . Green Cross Weed-No-More "80" . . . with

THE *RIGHT* OIL — an oil which increases effectiveness without increasing danger of crop damage. Best of 200 oils tested.

THE *RIGHT* COUPLER — a coupler that maintains the formula in perfect condition, irrespective of storage or date of purchase.

THE *RIGHT* EMULSIFIER — an emulsifier that ensures good stability and allows fine, uniform distribution.

THE *RIGHT* ESTER — the butyl ester of 2,4-D is the best solvent for waxy coatings of weed leaves, and is the least volatile of the common esters.
